

Social Networks - Do's and Don'ts

- Only establish and maintain connections with people you know and trust. Review your connections often.
- Assume that ANYONE can see any information about your activities, personal life, or professional life that you post and share.
- Ensure that your family takes similar precautions with their accounts; their privacy and sharing settings can expose your personal data.
- Avoid posting or tagging images of you or your family that clearly show your face. Select pictures taken at a distance, at an angle, or otherwise concealed. **Never post Smartphone photos and don't** use your face as a profile photo, instead, use cartoons or avatars.
- Use secure browser settings when possible and monitor your browsing history to ensure that you recognize all access points.

Managing Your Google+ Profile

Google+ provides privacy and sharing options using **Circles**. Circles are groups that users create for different types of connections, such as family, friends, or colleagues. Content is shared only with circles you select. Google+ requires that users provide real names - no pseudonyms.

Profile Settings

Apply and save the **Profile** settings shown below to ensure that your information is visible to only people of your choosing.

Connected accounts

You can improve your Google experience by connecting your accounts from other services.

Twitter Yes this is me No Add this link to my public Google Profile, too **Uncheck** Suggested

Do not add outside accounts

Connecting your accounts

- When you search, you can see relevant content your friends share on the web.
- You make it easier for them to find the stuff you share on the web.
- You can choose which accounts to show on your public Google Profile.

Remember, Google won't share your searches or other private information with third-party services without your consent.

Use my Google contact information to suggest accounts from other sites. **Uncheck**

By default, Google+ uses your Google contact information to link your accounts from other online services, aggregating your online identity in one location. To disable this feature:

- Go to **Account Settings > Connected Accounts**
- Click "No" to Google-suggested 3rd-party accounts
- Disable Google+ access to your contact information
- Do not manually connect other online accounts using Google+
