

Summer Reading List for Rising 8th Graders

~ fun, interesting reads to keep your brain engaged ~

This list is a suggestion of books to read during the summer. Studies have shown that if students don't read during the summer, their reading level can go down. The public librarians will have many other suggestions.

** These books are the Spotsy Reads books for 2017-18. You may read them during the summer, but if you read them too early, you may not pass the quiz, which won't be available until September. Spotsy Reads is a whole school reading program at Spotsylvania Middle School.
