SCHOOL BOARD POLICY FOR TUBERCULOSIS SCREENING REQUIREMENTS

I. Students entering school for the first time or returning after three months outside the United States must provide documentation from a licensed physician, nurse practitioner, physician assistant or registered nurse prior to entry of a:

- A. TB Risk Assessment documenting low risk for TB disease. All answers on the Risk Assessment should be negative. BCG vaccination does not exclude student from following protocol. – **OR** –
- B. Documentation of a negative TB (Mantoux) skin test or interferon gamma release assay within the past 12 months or after exposure. – **OR** –
- C. Written documentation of having successfully completed treatment for active tuberculosis disease.

II. Students shall be excluded from school until the TB policy requirement is met. As part of the risk assessment and targeted screening process, questions arise concerning the definition “high prevalence country” for the purposes of completing the risk assessment tool and determining who should receive a test for tuberculosis (either a tuberculin skin test (TST) or interferon gamma release assay (IGRA)).
